

Hospice Austin's Christopher House COVID-19 Visitor Policy

At Hospice Austin's Christopher House we value the importance of remaining connected and present with your loved ones. We welcome visitors within the following guidelines.

1. Patients may have up to two visitors in the building at one time.
2. Visitors must maintain physical distance at all times in the common areas and in the presence of staff.
3. All visitors must wear a mask that covers their mouth and nose, wear any other PPE (Personal Protective Equipment) and follow infection control measures as instructed.
4. Visitors are not required to have proof of a negative COVID test, but must pass screening upon each entry to the Hospice Austin's Christopher House in accordance with the current visitor policy, which includes temperature and health screenings. If a visitor's temperature is greater than 99.5 or they cannot answer no to all of the screening questions, they will not be allowed to visit at this time.
5. All visitors will self-monitor for signs and symptoms of COVID-19 and agree to a COVID-19 screening each shift.
6. All visitors will use the designated entrance and exit and are asked to remain in the patient's room while visiting.
7. A visitor may be asked to leave at any time in the event that any part of this policy is not followed.
8. Visitors are asked to remain in the patient's room during their visit and are welcome to use outdoor spaces as needed to help allow for proper physical distancing.
9. Pets are welcome to visit in the accompaniment of a human.

Failure to follow this policy will result in visitation rights being revoked.

Thank you for working with us to keep our patients, visitors, and staff safe!
